## SPOTLIGHT

### SILVER LININGS

Meticulous about their aesthetics, EPISODE Silver creates tasteful and beautiful collectibles with silver. The label's latest collection includes sophisticated photo frames. EPISODE Silver boasts a unique and exclusive collection perfect for those who seek and appreciate artistic skill, and the elegant photo frames are an outcome of the same line of thought. Each piece stands

apart from the other, with its unique look and feel. The frames are available in a variety of shapes including circular, rectangular and square. If you are a true connoisseur of artistic excellence, these photo frames will find space in your home. These also make for perfect gifts for birthdays, anniversaries and weddings. ### BLING IT ON

Make heads turn with these shining beauties from Payal New York's recently launched spring/summer collection. These statement earrings are bold, yet classy and chic. Interestingly, jewellery by Payal New York is a derivative of the thought process and design of an architecture enthusiast who has always found mathematics interesting. Raised into a family of jewellery makers and married to a diamond merchant, Payal Mehta ventured in to jewellery designing late in life. Her collections range from lotus-inspired jewellery and zodiac-themed pieces to ones exploring the mystique around the moonstone. Mehta specialises in bespoke fine jewellery. She also produces a handful of fresh, easy-to-wear jewellery collections based on inspirational, tailor-made themes with stones and motifs that speak directly to women's spirits and natural inner strength.
